Auto Accidents

Auto accidents are responsible for an exorbitant number of injuries and deaths in the United States every year. If you or someone you love has been injured in a motor vehicle accident, you may be eligible to recover financial compensation from the liable party. An experienced and diligent personal injury lawyer from our Sarasota law firm can review your case and help determine the best way to proceed with your claim.

Trucking Accidents

Commercial vehicles can weigh up to 80,000 pounds and are capable of causing significant damage in the event of a traffic accident. Truck drivers have an obligation to abide by state and federal trucking regulations and to operate their vehicles in a safe manner. If a truck driver fails to abide by these standards and injures another party as a result, he or she can be held liable. Trucking accidents can easily result in severe injury or death, and it is important that negligent parties be held accountable for their actions.

Motorcycle Accidents

Motorcyclists are extremely vulnerable on the road. A lack of external protection means that motorcyclists can suffer severe injuries in accidents that most other motorists might be able to walk away from unscathed. If you or a loved one is a motorcyclist who has been injured as a result of the reckless and negligent actions of another party, we can help. Motorcyclists have all of the same road privileges that motorists in passenger vehicles do. At Lutz, Bobo & Telfair, P.A., we are committed to helping victims of motorcycle accidents obtain the restitution they deserve.

Premises Liability

If you have been injured because a property was unsafe or improperly maintained, a personal injury lawyer from our firm, serving all of Southwest Florida, can provide you with sound legal counsel. Premises owners have an obligation to maintain their properties so that they are safe for human occupation and usage. If a property owner fails to do so, and a person suffers an injury as a result, the property owner may be sued under the doctrine of premises liability. The attorneys of Lutz, Bobo & Telfair, P.A., would be pleased to review your case and determine the viability of your potential premises liability claim.

Product Liability

Product designers, manufacturers, and distributors have a legal obligation to ensure that the products they design, build,

and sell are safe for the public. This includes taking reasonable measures to warn the public of potential risks associated with the product. If you have suffered an injury as a result of an unsafe product, a personal injury lawyer from our Sarasota law firm can help you file a product liability claim. Consumer product companies may be held accountable for a product defect regardless of whether they acted negligently.

Traumatic Brain Injury

Suffering a traumatic brain injury (TBI) is a devastating and life-altering experience. Many individuals who suffer a TBI are dependent on the care of others for the most basic of human functions. If someone you love has suffered a TBI, the attorneys at Lutz, Bobo & Telfair, P.A., will work tirelessly with the goal that you and your loved one obtain compensation to cover all past, current, and future medical costs associated with the injury. If you are seeking legal representation in the greater Southwest Florida area, a personal injury lawyer from our Sarasota and Bradenton-area law firm can assist you.

Spinal Cord Injury

A spinal cord injury can be caused by a variety of incidents, including auto accidents, falls, and acts of violence. We can help your family strive to obtain just and fair financial compensation if someone you love has suffered a spinal cord injury. Severe spinal cord injuries can result in partial or complete paralysis and, in many cases, the loss of the ability to be self-sufficient. Our compassionate and dedicated attorneys will work diligently to try to see that your family obtains the restitution it deserves.

Medical Malpractice

Doctors, nurses, anesthesiologists, and medical practitioners have a duty to abide by a reasonable standard of care. If a medical practitioner fails to meet this standard and injures a patient as a result, he or she can be held liable for damages. A personal injury lawyer from our Sarasota-based law firm can help you file a medical malpractice lawsuit if you or a loved one has suffered an injury at the hands of a negligent doctor, nurse, or other healthcare provider.

Nursing Home Abuse

Unfortunately, nursing home abuse occurs all too often to elderly residents throughout America. If someone you love has been abused at the hands of a healthcare provider while in a nursing home, he or she has legal rights. In addition to criminal penalties brought forth by the government, we can help you file a lawsuit against the liable parties to exact civil penalties for such an egregious act. At Lutz, Bobo & Telfair, P.A., we are dedicated to protecting the rights of the elderly, and we pursue nursing home abuse claims.

Defective Drugs

The use of defective drugs can result in serious injury or death. Our attorneys have experience in a variety of legal fields, including pharmaceutical litigation. If you or someone you love suffered an injury because of a defective drug, a personal injury lawyer can provide legal advice. Serving greater Sarasota and beyond, the attorneys at Lutz, Bobo & Telfair, P.A., can help you file a personal injury lawsuit against the liable parties and, if applicable, enter you in as a plaintiff in a class action.
